

# A Transportation and Logistics Sector that Wins

## What the Sector Needs to Win

A modern, effective and efficient infrastructure network.

The use of innovation to increase the safety, efficiency and reliability of our transportation system.

A robust talent pool to address the looming skills shortage.

Streamlined customs procedures and regulatory simplification.

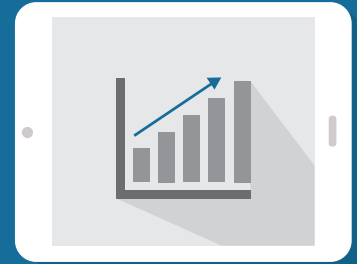

The transportation and logistics sector accounts for more than **\$66 billion** in GDP and employs more than **860,000 Canadians**.

# Wins for Business

We, along with our network of over 450 chambers of commerce and boards of trade, are focused on breaking down the barriers to competitiveness to ensure Canadian businesses can prosper, compete and succeed. Our efforts are paying off.

## Here are some of the wins we've achieved that will benefit the transportation and logistics sector:

The New Building Canada Plan to build roads, bridges, subways, commuter rail and other public infrastructure in cooperation with provinces, territories and municipalities. Implemented in 2013, the plan provides approximately \$53.5 billion over 10 years in new and existing funding for provincial, territorial and municipal infrastructure.

Canada's transportation system moves more than **\$1 trillion** worth of goods each year.

A commitment of \$750 million over two years starting in 2017 and \$1 billion per year thereafter to improve transit across Canada.

Improved regulatory alignment and customs cooperation to facilitate trade with the United States, including a preclearance agreement.

The Canada Apprentice Loan to provide apprentices in Red Seal trades with access to interest-free loans of up to \$4,000 per period of technical training.

Funding to build the new Windsor-Detroit bridge and border crossing.
