OF COMMERCE

LA CHAMBRE
DE COMMERCE
DU CANADA

Regulatory Efficiency

Over time, Canada's regulatory environment has become a collection of complicated, overlapping and inefficient sets of rules. While Canada's overall ranking in the World Economic Forum's *2015-2016 Global Competitiveness Report* is a respectable 13th of 140 countries, in the sub-ranking on the burden of government regulation, Canada ranks 37th. This regulatory burden makes Canada a less desirable destination to start or grow a business.

In 2017, we will develop a project that will look at areas where Canada's regulatory environment is failing and demonstrate the need for a system that is more open, transparent, predictable and efficient. We will advance the idea that all regulators have economic mandates and that a more dynamic regulatory environment can significantly improve Canadian business competitiveness.

Looking Forward

The Canadian Chamber of Commerce is the national leader in public policy advocacy on national and international business issues and is focused on fostering a strong, competitive economic environment that benefits businesses, communities and families across Canada.
