# ICC Canada International Arbitration Conference 2018

November 8-9, 2018 | Ottawa, Ontario, Canada

As the national committee of the International Chamber of Commerce (ICC Canada), our annual International Arbitration Conference gathers Canadians and others from around the world who practise international arbitration, in-house counsel, leading international arbitrators and representatives from the ICC International Court of Arbitration to share practical insight on key issues in international arbitration.

This conference is an important gathering of the Canadian and international arbitration communities because of its content and excellent networking opportunities. Over 120 people are expected to attend.

Sponsoring our International Arbitration Conference is a great opportunity to increase your company's brand awareness and strengthen your reputation with arbitrators, in-house counsel, business people, lawyers and legal practitioners involved in international commercial disputes and international trade.

All sponsors will be recognized on our website, on the International Chamber of Commerce's website and on all marketing, communications and conference materials, including our event app.
